### Reading a Bus Schedule

1. Find the time point nearest the place you want to board the bus. Then refer to the time point before that to determine your departure time.

2. Then use the headings, called time points, with names of places where buses stop. The listing does not include stops that have no bus stops, but only includes stops along your route.

3. Lines and columns of points show on where and when you want to transfer.

4. Check the columns of times under your destination to find the time of the last bus.

5. Find the time nearest the place you want to board the bus. Then add a trip along the route within two blocks of that location — just look for your route number on the bus stop sign and choose your trip.

6. Then move your finger down the line to your origin to determine your departure time. If you’re not catching the bus at the time point listed, refer to the time point before your stop.

### Cómo leer el horario

1. En el parte superior de cada horario, busque los nombres tales como “llegadas los días de la semana” o “ida/hora del esde los sabados” para determinar cual es el horario de suma.

2. Después busque los puntos numéricos, con los nombres de los lugares donde paran los autobuses. La lista no incluye todas las paradas de los autobuses, pero los autobuses paran en todas las paradas a lo largo de la ruta.

3. Encuentre el punto más cercano a donde usted está y a dónde quiere ir.

4. Revise la columna de los horarios según su destino para encontrar la información apropiada.

5. Encuentre el punto numérico más cercano al lugar donde desea abandonar el autobús. La lista normalmente muestra las paradas en el orden de las paradas para determinar su ruta.

6. Después siga la línea hacia la izquierda de su origen para determinar su hora de salida. Si no puede tomar el autobús a su ubicación inicial, se fijará el punto numérico para su destino.
