Dear Physician or Healthcare Professional:

We need your assistance in determining eligibility for services provided by METROLift to persons with disabilities who are unable to use local bus transportation. We are seeking specific information as to what prevents the person from using METRORail and the METRO bus routes that provide transportation throughout the area. METRO buses are equipped with ramps, lifts, and kneeling features to assist boarding as well as automatic announcements of major stops to help riders know where they are along the route. The Americans with Disabilities Act of 1990, 49 CFR 37.121, Subpart F states– “..each public entity operating a fixed route system shall provide paratransit or other special service to individuals with disabilities that is comparable to the level of service provided to individuals without disabilities who use the fixed route system.” “By complementary, DOT means service for individuals with disabilities who cannot use the fixed route bus system.” The information requested of you in the following sections will be used to help determine the applicant’s METROLift eligibility. It is important that all questions be answered completely and accurately to the best of your knowledge and in accordance with your records.
